EDUCATION

B.S. in Computer Science and Technology

Insituto Tecnológico de Estudios Superiores de Monterrey (2023) || GPA: 4.0

PROJECTS

Computer Security in Networks and Software - HTML, CSS, Tailwind, React, Vite, TypeScript, Figma Fall 2025

- Developed a web-based hospital management system for HIES (Sonora State Children's Hospital) cutting record access time by ~40% through user-centered form design and streamlined workflows.
- Contributed to interface design, front-end development, and usability testing.

Software Construction and Decision Making - HTML, CSS, React, Vite, TypeScript, Figma Spring 2025

- Developed an interactive web-based physics simulator aimed at enhancing user engagement and clarity.
- Contributed to interface design, front-end development, and usability testing.

NASA Space Apps Challenge - HTML, CSS, Tailwind, React, Vite, TypeScript, Figma Fall 2025

- Developed a web application that provides real-time and historical weather data, combining information from the Meteomatics API and NASA scientific datasets.
- Contributed to interface design, front-end development, and usability testing.

Internet Of Things - HTML, CSS, JavaScript, MySQL, PHP, Arduino Fall 2024

- Developed an IoT web dashboard for monitoring refrigerated container sensors. Focused on creating a clear, data-driven interface with secure login, responsive dashboards, and an accessible navigation sidebar.
- Contributed to interface design, prototyping, database integration, and full-stack development.

Collaborative Role-Playing Game Development - Gamemaker, GML Fall 2024

- Developed a story-driven RPG created during Ludic Jam 2024, a two-week hackathon focused on creative game design. Featured original art, dialogue systems, and interactive gameplay.
- Contributed to visual design, interface design, narrative writing, character animation, and game development.

EXPERIENCE

UI Designer & Front-End Developer - SIH (Smart Traffic Lights System – Hermosillo) October 2025 - January 2026

- Design and develop a government-linked smart traffic management web platform, translating complex system requirements into responsive interfaces using Figma, HTML, CSS, Tailwind, React, Vite, and TypeScript.

UI Designer & Front-End Developer - Sonora Game Fest (Hackathon) Fall 2025

- Designed and developed the event webpage alongside a team, creating the UI in Figma and implementing a responsive front end using HTML, CSS, Tailwind, React, and Vite.

Lead Organizer - Ludic Jam (Hackathon) Fall 2025

- Planned and coordinated all event logistics and participant experience, designed visual branding (logo, posters, mascots), managed social media, and led a GameMaker course on game development for participants.

Information Technology Specialist - Global Staffing Partners April 2025 - Present

- Provide technical support for Microsoft 365, Intune, and mobile device management (MDM), managing user configuration, license administration, security policies, and remote troubleshooting.

SKILLS

Programming: C++, Python, TypeScript, JavaScript, MySQL, PHP, R; Git, GitHub.

Web Development: HTML, CSS, React, Bootstrap, Tailwind, Vite.

UI/UX & Design: Figma, Canva, WordPress, Wix; Design Thinking, Wireframing, Prototyping, Usability Testing.

Game Development: Unity, Unreal Engine, GameMaker, Roblox Studio.

Languages: Spanish (Native), English (C2 - Proficient).

ASSOCIATIONS

President, Girl Up: Student group that focuses on leadership and equity for girls and women.

Attendee, Out 4 Undergrad Engineering 2025: Conference that brings together top engineering students.

Computer Science Representative, SEING: Student Society of Engineering.

Mentor, PEERS 2024-2025: Mentorship program pairing upperclassmen with freshman students in college.

CERTIFICATES

UX Design Fundamentals - CalArts (Coursera)

February 2026

Visual Elements of User Interface Design - CalArts (Coursera)

January 2026

Lean Six Sigma White Belt - International Lean Six Sigma

November 2025
